

PLANT MADE. PLANET APPROVED.

- **Compostable in a Commercial Compost Facility** – Appropriate commercial composting facilities may not exist in your community. Please check with your local municipality. Not suitable for backyard composting.
- **Plant-Based Lining** – Cup lined with PLA (poly lactic acid) a plant-based resin which acts as a moisture barrier to prevent leaking replacing the petroleum-based lining typically found in paper hot cups.
- **Sustainability Alternative** – Made from 100% plant-based renewable resources and made with SFI certified paperboard.
- **Third Party Certifications** – Meets the ASTM D6868 standard and certified by the Biodegradable Products Institute (BPI) as compostable in a commercial composting facility.

Bare® by Solo® Eco-Forward® Commercially Compostable SSPLA Paper Hot Cups

PLANT MADE. PLANET APPROVED.

For some food packaging applications, a commercially compostable product is the most environmentally responsible option. Solo's Bare® SSPLA-lined hot cups are compostable in a commercial compost facility. Appropriate commercial composting facilities may not exist in your community. Please check with your local municipality. Not suitable for backyard composting.

Commercially compostable* paper hot cups made from plant-based renewable resources

Sustainability Alternative
Commercially compostable* and made from 100% plant-based renewable resources

Lid Interchangeability
One lid fits the 4 most popular cup sizes for operational efficiency

Rolled Rim
Gives rigidity to the cup and ensures secure leak-resistant lid fit

Customized Design Available
Customize operator's branding and logos
